uwmadison 3. In one of the year's most heartwarming but ultimately heartbreaking stories, Scout, a 7-year-old golden retriever, appears on January 28 with his owner, WeatherTech CEO David MacNeil, and Dean Mark Markel, Chancellor Rebecca Blank and oncologist David Vail at the UW School of Veterinary Medicine. MacNeil sponsored a Super Bowl ad to raise funds and thank @uwvetmed for its care of Scout, who had a rare form of canine cancer.
